Health is a good thing but sickness is far better if it leads us to God.

Sickness for Gods Glory

We think about the temporal God is concerned about the eternal, we think about the issues God is concerned about his purpose. If you are going to walk with God you have got to think like God. You need to get Gods perspective on your situation and your circumstance.

Change starts with women. Who came to Jesus about an issue the brother was having? Most of us can identify some woman somewhere in our lives who pray for us.

We have a god who only shows up when things have become completely impossible. Because we have a God whose strength is made perfect in your weakness. God will allow you to get into a situation that you cannot get out of and nobody you know can get you out of.

God doesn't get glory out of what doesn't happen. The reason God gets glory is when he lets you see to how close you came to being totally destroyed.

There is something about suffering and despair that brings some to strain our ears for the voice of God.
